BUILDING USE**Narthex Sales**

POLICY: Special donations (contributions) such as Winnipeg Harvest are allowed before and after worship on Sunday, with a table being set up to facilitate the collection of such donations.

Sales which occur by placed order forms in Order Boxes left discreetly in the Narthex are acceptable both before and after worship, as is signing up for Photo Directories or Name Tags.

Other sales of merchandise or tickets can be held in the Narthex after the Sunday worship service, as long as there is one sale only and one display with respect to that sale in the Narthex. When more than one committee or team, through the Church Office, requests the Narthex or a sale on the same Sunday, the first booking has priority. Committees and teams are responsible for the types of sales held.

Sales are fully explained in advance to the community of faith in an appropriate manner explaining how proceeds of the sale are to be used. Two sales at once could be approved under special circumstances by the Minister in consultation with either the Worship Team Lead, or Finance and Stewardship Committee Chair.

PHOTOGRAPHY AND VIDEO

POLICY: As a general rule, photographs/videos are permitted to be taken during worship and in the Sanctuary following a service.

BACKGROUND: Most worship services are livestreamed and recorded to be shared via the Church's official communication channels (e.g.; website, newsletter social media).

DUTY OF CARE: Photos and videos featuring congregants or individuals not taking part in the worship service should not be shared or published online without attempting to obtain the permission of those individuals, or care should be taken to protect their identity in other ways (e.g.; edits to obscure faces). This applies most directly to children whose image and identity should not be shared online without first receiving consent to do so from their parents.

Members of the Communication Team are permitted to take photographs/videos during worship service from the perspective of the steps of the chancel forward or in such a way that congregants' identities are obscured (e.g.; only backs of heads visible) and publish them via the Church's official communication channels (e.g.; website, newsletter, social media).

While due diligence will be taken to assure one's privacy when requested or indicated in these guidelines, the privacy of people attending a worship service cannot be guaranteed due to the volunteer nature of photographers and camera operators.

Team leads wishing to share photographs/videos with the Communication Team for publication via the Church's official communication channels should first attempt to obtain permission from the individuals depicted in the images. Members of the Communications Team should inquire with these contributors whether permission was received before accepting and sharing content.

PROCEDURE:

Parents or guardians of children and youth under the age of 18 should:

- Sign waivers at the start of the church school year granting permission to share their children's images via Westworth official communication channels (e.g.; website, newsletter, social media) or not.

If you wish to submit a photo/video to the Communications Team for publication online:

- Notify individuals identified in the photo/video of your intent and obtain their permission.
- Email the photo/video to the Communication Team Chair with a brief description and notification that permissions have been obtained.
- Take great care to ensure that the privacy of any child or youth whose parents did not grant permission to share their images is respected.

SIGN USAGE

POLICY: The outdoor sign gives the impression that Westworth is an active place and provides information and advertises events that we want people inside and outside the Community of Faith to know about.

GUIDELINES:

- Messages should always be purposeful and communicate useful information.
- Messages that are light-hearted/humorous help to attract attention to the message. “Thought of the week”-style messages, or any messages intended to act as filler do not fulfill the purpose of the sign.
- Messages should be current, and changed as needed but not necessarily every week.
- The message board should never be blank.
- The two sides of the sign may be used either for the same, or different messages.
- The Office Administrator and Minister share responsibility for receiving suggestions for messages from the Leadership Team and others, and for scheduling staff or volunteers for the work involved in changing the message.
- The Communications Team will review these guidelines when necessary or upon request from Council.

BUILDING RESERVE FUND EXPENDITURE COMMITTEE/PROCESS

POLICY: That the document 'Building Reserve Fund Expenditure Committee/Process', as presented by the Property Team, be accepted. That \$100,000 of the Faith and Future Fund be transferred to the Building Reserve Fund. (A motion "That a Building Reserve Fund be established" passed on on May 24, 2011 with no parameters set upon creation).

PURPOSE: On behalf of the Westworth United Church the Building Reserve Committee's role is to consider and approve as it sees fit the expenditure of the Building Reserve Fund. The Building Reserve Fund is a fund that has been set up by the Westworth United Church Official Board (*now Council*) to be used to address the building/infrastructure requirements not included in the regular Property Committee (*now Team*) budgeting and operations. The Official Board at its discretion may make changes to the Building Reserve Committee or the Building Reserve Fund from time to time.

COMMITTEE: The Committee that will make decisions about the use of the Building Reserve Fund will be the elected Property Committee members. The Chair of the Property Committee will chair the first meeting and may elect to have vote within the Property Committee membership to determine the Building Reserve Fund chair for subsequent meetings. The Chair will receive and manage the requests and produce minutes of the meetings and report to the Official Board when requested.

LIMITS: The Building Reserve Committee will have an approval capacity of \$20,000 per year and at any time may look for guidance from the Official Board. Requirements of funds in excess of that amount will need to be approved by the Official Board at the first available board meeting.

PROCESS: The Property Committee will determine the Building Reserve Fund projects that will be undertaken to develop or enhance the church. These will be based on their own evaluations of what needs to be done and by submissions which may come from within the congregation. The agenda of each Property Committee meeting at its regular meeting will include the Building Reserve Fund item whether there is a report or not. Ad hoc meetings will be scheduled as required for emergency repairs should they occur. It is also recommended that a plan for repairs or construction up to five years in advance be in place. If a member who is not part of the Property Committee wishes to make a submission to the Property Committee to access the Building Reserve Fund, he or she can do this in one of two ways. The first is to attend a meeting and give a verbal presentation or submit it in writing giving the date, submitter, request description, request amount, the level of urgency and the request justification.

 - c. Church Administrator notes on the form if the time required for office and custodial needs can be accomplished within regular work hours or if overtime is required and can be accommodated.

In these cases, the approval notice will be sent to the Organizer and the Communication Ministry Team with a request for them to review and follow up with the Organizer directly.
- The Communications Ministry Team Lead will flag any costs required for AV supports for the Organizer.

7. Organizer notifies the Church Administrator and Treasurer if event cannot proceed for any reason.

DELETION OF TITLES FROM THE WESTWORTH MUSIC LIBRARY

POLICY: The Westworth music library holds hundreds of anthems. These have been purchased over time by Directors of Music using funds allocated for that purpose by the Worship Team. The library is under the custody of the Westworth Senior Choir Executive and is maintained by the Choir Librarian using standard procedures set out in the Choir Handbook established for that purpose.

From time to time, the collection should be culled so that texts/tunes of the anthems remain current regarding theology, language, and trends in composition style. This policy establishes the process by which removal of titles from the library will occur.

- The decision to begin a process of culling the music library will be made collaboratively between the Director of Music and the Choir Librarian. This process could be requested by another individual or group within the congregation.
- Written notification of the Senior Choir Executive and the Worship Team must occur before the process begins. Notification will include:
 - Rationale for the recommendation to remove titles from the library, and
 - The criteria used to guide the decision-making process related to the deletion of titles.
- The process of identifying titles that fit the criteria for deletion will include the Director of Music, Collaborative Pianist/Organist, and the Choir Librarian.
- The preliminary list will be submitted to one other individual who is familiar with the collection and/or has experience in conserving choral music libraries as a final peer review.
- The final decision regarding titles to be deleted will be made at a meeting of the Senior Choir Executive upon the recommendation of the Choir Librarian.
- This decision will be forwarded to the Worship Team for information.

PROCEDURE:

1. Consultation with individuals within and outside of the congregation should be the first step in establishing the criteria for deletion of titles from the music library. Factors to be considered in establishing the criteria can include, at a minimum:
 - a. Changes in theology
 - b. Inclusivity of language
 - c. Trends in compositional styles
 - d. The choir's current/future ability to master and present the composition during worship.
2. The final disposition of all titles deleted from the music library should be documented on the master list on the choir computer (also backed up on a memory stick) as well as on a hard copy. Both electronic and printed copies should be maintained in a secure place. An updated choir music list should be periodically deposited with the Westworth's office administrator.
3. A copy of each deleted title should be retained within the library in a manner determined by the Choir Librarian.
4. Deleted items should be donated to other interested organizations if possible. If this is not possible, they should be recycled.
5. The Choir Librarian is responsible for ensuring that proper disposition of deleted titles occurs.
6. The process for deletion from the Choral Library should be initiated, at a minimum, every 10 years.

RISK MANAGEMENT

RESPONSIBLE RISK MANAGEMENT

POLICY:

BACKGROUND: As a Church, we take seriously our mission to be the hands and feet of Christ, which necessarily entails being active in our community, guided by our fundamental values and beliefs. Occasionally, situations arise that present an opportunity to act, but which are perceived to involve some risk (social, political, safety) to WUC, its Community of Faith, and/or staff. Often, such situations are fast developing and do not allow for a meeting of Council, even by phone, to decide the most appropriate course of action. In addition, such situations often entail considerable uncertainty, owing to incomplete information and emerging developments. This policy sets out the procedure to be followed when such occasions arise. The aim is to balance, as adequately as possible, the competing demands to seize what may be an opportunity to fulfill our mission and the requirement to avoid unacceptable risks to the Church.

PROCEDURE: 1) Preemptively: Criminal Records Checks Required for Staff (2023). Staff assume the cost of a current satisfactory Police Record Check and Police Vulnerable Sector Check.
2) Anyone associated with WUC may bring to the attention of the Chair of Council or the Minister a potential opportunity to act to fulfill our mission.
3) The Chair and Minister will discuss the situation and consult with any other persons they deem fit to gather information regarding what is happening, the ways in which WUC could potentially become involved, and what are the potential benefits and risks of alternative courses of action.
4) By consensus, the Chair and Minister will decide what, if anything, to do. If they decide to act, the Chair and Minister will initiate an implementation plan, again involving any other persons they deem fit.
5) As soon as possible, the Chair and Minister will inform Council and the broader Church community of the situation, as appropriate, and seek their ongoing guidance and support.
6) At its next regular meeting, Council will review all of the above and the consequences as they are known at the time, with a view toward learning lessons that may be applied in the future.

SAFE WORK/WORKING ALONE OR IN ISOLATION

POLICY: From time to time, Westworth employees or volunteers may find themselves in a position where they are working alone, as the only person present in the Church. While for most individuals there is little or nothing inherent in their work that makes working alone dangerous, the mere fact of being alone may result in complications should circumstances warrant they require assistance.

APPLICABILITY: This policy applies to any employee or volunteer who has cause to be the only person present in the Church at any point in time, or who in the course of their duties is required to travel outside the Church on their own.

PROCEDURE: Each employee will work with their Ministry and Personnel (M&P) liaison to establish their own personal Work Alone protocol. Each team or committee will establish their own Work Alone protocol for its volunteers and may obtain assistance from the Ministry and Personnel Committee.

In general, the primary method for dealing with periods where employees/volunteers are working alone will be to establish periodic telephone contact between the employee/volunteer and another designated person who shall be either: another employee or volunteer, Ministry and Personnel representative, or another person designated by the employee/volunteer, such as a family member. The employee/volunteer shall ensure that the designated person is aware of the agreed check in schedule and is aware of who to contact in the event that a scheduled check-in is missed. If the designated person is someone other than a member of Church staff or a Church volunteer, the employee/volunteer shall ensure that their designated person has contact information of a Church employee/volunteer who will be able to follow up to ensure the employee/volunteer member is safe.

When two or more people are working in the Church at the same time, each employee who is leaving the Church shall "check in" with at least one other staff member in order that situations are not created whereby a staff member is left working alone, but is unaware of that fact.

When there is only one staff member working alone in the Church, all exterior doors to the Church should be locked. Anyone visiting the Church at this time will be required to make telephone contact in order to gain entry.
